**PLEASE HELP**

Your gift is vital to save the lives of many stray and abandoned cats in our community. What would these cats and kittens do without you? Especially ones like these new arrivals below.

**From the Biggest . . . . . To the Smallest**

**BEEMER**

**Hello**, we are the two **smallest kittens** in the shelter. We, were orphaned and are just a few days old. We love getting our bottles every two hours. The milk tastes yummy. • Our new “human mommy” is really great and she keeps us clean, warm with heating pads, feeds us and even wipes us! • Our eyes have just opened and wow! - what a big world it is out there - especially when you only weigh 7 ounces!

**THE BABY KITTENS**

**Hello, I'm Beemer**, the big guy above. I got left all alone at the door to SAFE Haven about a week ago. Maybe my folks were having a problem keeping a roof over my head. • The people here were happy to see me and took me in with no questions asked. • First of all, you can tell from my picture I am a pretty hefty guy. **I weigh 22 pounds!** I am told I am one of the *biggest* cats ever to come here. • Secondly, I have lost all my hair from my chest to my tail. We will be getting to the bottom of that (pardon the pun!) • I am very athletic, however, and can jump up on anything in the playroom without so much as breaking a sweat. Since I got here I have been very affectionate and have settled in beautifully. Next stop - a new permanent home for this mature guy.

**THANK YOU FROM BEEMER AND THE BABY KITTENS!**
