

WHY FIX?

YOUR CAT or DOG!

Dogs Have **2** Litters a Year

- 2** The average number of litters a fertile dog can produce in one year
- 6-10** The average number of puppies in a canine litter

Cats Can Have **3** Litters a Year

- 3** The average number of litters a fertile cat can produce in one year.
- 4-6** The average number of kittens in a feline litter.

SURPRISE!

Many people don't know that cats can go into heat and get pregnant by 4 months and dogs by 5 months.

Spay and neuter early!

The best time to fix your pet is by 5 months to prevent accidental litters.

SAFE CARE
Spay and Neuter Clinic
