

Veterinarian

High Quality/High Volume Spay/Neuter Clinic

Do you believe in the mission of no-kill shelters like SAFE Haven for Cats? Is animal overpopulation a concern to you? If you answered “yes” to all of these, this might be the opportunity for you!

Description

- Completes 15-20 sterilization surgeries on dogs and cats per day.
- Follows best practices on pre-, peri-, and post-operative care.
- Provides confident and clear direction to veterinary technicians and veterinary assistants.
- Oversees all aspects of assigned patients, including (but not limited to): physical examination; surgery; pre- and post-operative care; anesthetic protocols; patient monitoring; and emergency response.
- Supervises handling and recording of controlled substances by Veterinary Technicians.
- Supervises and document post-operative rechecks and order of medical treatments, as necessary, to ensure complete surgical recovery.
- Assesses individual patient issues and provide sensible and compassionate solutions.
- Maintains open communication with the Medical Director, apprising them of any patient issues and concerns.
- Communicate issues regarding the clinic’s disease control protocols, surgical protocols, or other medical issues with the Medical Director.
- Embrace the “Fear Free” model of veterinary medicine.
- Model a standard of continual commitment to improvement in all aspects of organization and handling of dogs and cats.
